Construction is moving forward for the New Church in Neply

Recently I returned again from Haiti and was overjoyed to see the progress on the new church we are building in Neply. One afternoon as I visited the construction site, the sun was beating down and sweat was pouring off of our workers. They were shovelling so hard so I asked them if they were tired and if they wanted to stop.

With huge smiles on their faces and an excitement in their voices, they answered, "No Madame Jwa! We are so happy to have jobs and we are not tired!"

Their enthusiasm touched me and I was thrilled to be reminded that once again we are not just building a church here, but we are building people!

Every parent knows the pain of not being able to take care of their children and every parent knows the joy their heart feels when they can provide for their own family plus have enough to help someone else outside of themselves!

We all need to feel good about ourselves and have purpose in life. Keeping our people busy working with their hands since the earthquake has brought them emotional healing. Rather than focus on their great loss, they see a Bright Future, Hope and Newness of Life!

The Fullness or Emptiness of Life is measured by the extent to which we feel we have an impact on the lives of others. To feel complete is to "Matter" to someone outside of Yourself, or to some "Calling or Cause" bigger than Yourself! As You have poured into the lives of the Haitian People, they are being equipped to also pour into other people around them! This is the plan of God! We Must continue to take the focus off of ourselves and reach out to others! This is where we find true joy and happiness when our life "Matters" to someone Bigger than Ourselves! For all of you who have poured into the Missions Work this Year we would like to say that....."You Matter" to us!

Thank -you for making more dreams come true in 2011!
We pray you have a Blessed Christmas Season!
