

New Photos From Haiti!

We received more photos today from Pastor Antoine. He was able to go to a few of our areas and get photos but he still has more villages to visit in the upcoming days. Please pray for him and his team as they are working night and day to help the people in our villages.

As you know Pastor Osnel has lost his wife Aliza, daughter Josesmith, and son Ti James. Our heart goes out to him and his surviving daughter Judestania. He is being strong for the moment only because he is running on adrenalin and has so many people that are pulling on him for help as well. Please continue to pray for him as he faces this tragic time in his life.

Below is the most recent photo we have of his family as well as before and after photos of his home. Buildings are replaceable but lives are not. However we know that his wife and children are with the Lord and he will see them again some day!

The trade school as you know has been destroyed but words can only say so much. The magnitude of this earthquake really hits you when you see these before and after photos. Thank fully no one was inside the trade school when it collapsed!

The Orphanage security wall has collapsed on the one side but none of the children were severely injured. However we will need to get this wall put back up rather quickly in order to keep the children safe.

The Santo Church has also collapsed. People are camping out in the outside property around the church and will probably have service in a nearby field this Sunday.

The Nepley Church has also been destroyed. The only photo we have so far is of the Kid's Church area that is on the back part of the building.

Many homes have also been destroyed in the Neply Area. Here are a few photos that we have received so far. Many people have been left homeless!

We will continue to update you as we know more. Again we cannot thank you enough for all of your prayers and support.

God Bless You!!!
